No. 39]

NEW DELHI, SATURDAY, SEPTEMBER 27, 1952

NOTICE

The undermentioned Gazettes of India Extraordinary were published during the week ending the 22nd September 1952:—

Issue No.	No. and date	Issued by	Subject
399	No. 19/295/52-Elec. VII, dated the 15th September 1952.	Election Commission, India.	Appointment of certain persons as the other members of the Election Tribunal.
	No. 19/145/52-Elec. III, dated the 15th September 1952.	Ditto.	Appointment of the Chairman of the Election Tribunal, and of the place where the trial of the petition is to be held.
	No. 59-MY/52-1-Elec. III (1), dated the 15th September 1952.	Ditto.	Filling of a vacancy in the Council of States from the State of Mysore.
	No. 59-MY/52-1-Elec. III (2), dated the 15th September 1952.	Ditto.	Appointment of dates for the bye-election to the Council of States.
	Nos. 39/MY/52-1-Elec. III (1) and 39/MY/52-1-Elec. III (2), dated the 15th September 1952	Ditto.	Appointment of certain officers to be and to assist the Returning Officer for the bye-elections to the Council of States.
	No. 59-PB/52-1-Elec. III (1), dated the 15th September 1952.	Ditto.	Filling of a vacancy in the Council of States from the State of Punjab.
	No. 59-PB/52-1-Elec. III (2), dated the 15th September 1952.	Ditto.	Appointment of dates for the bye-election to the Council of States
	No. 39-PB/52-1-Elec. III, dated the 15th September 1952.	Ditto.	Designating of the Secretary to the Punjab Legislative Assembly to be the Returning Officer for a bye-election to the Council of States.
400	No. F. 32(6)/52-C., dated the 16th September 1952.	Ministry of Law.	Notice regarding second return of election expenses of a candidate nominated for election to the Council of States by the elected members of the Legislative Assembly of Mysore.
401	No. 284, dated the 12th September 1952.	Election Commission, India.	Election petition No. 284 of 1952.
	No. 19/142/52-Elec. III, dated the 16th September, 1952	Ditto.	Appointment of certain persons as the other members of the Election Tribunal.
402	No. PB-P/52(26), dated the 15th September 1952.	Ditto.	Disqualification of a candidate who failed to lodge the return of election expenses from Nawanshahr Constituency.
	No. MB-CS/52(7), dated the 15th September 1952.	Ditto.	Corrigendum to Election Commission's notification No MB-CS/52(5), dated the 17th July 1952.
403	No. RN-P/52(28) dated the 15th September 1952.	Ditto.	Removal of disqualifications of a candidate by the Election Commission.
404	Nos. UP-P/52(80), TC-P/52 (13) and HP-A/52 (20), dated the 16th and 17th September 1952.	Ditto.	Removal of disqualifications of certain candidates by the Election Commission.

Copies of the Gazettes Extraordinary mentioned above will be supplied on indent to the Manager of Publications Civil Lines, Delhi. Indents should be submitted so as to reach the Manager within ten days of the date of issue of this Gazette.

MINISTRY OF COMMERCE AND INDUSTRY

PUBLIC NOTICES

IMPORT TRADE CONTROL

New Delhi, the 16th September 1952

SUBJECT:—Amendment of Public Notice No. 61-ITC (PN) 52, dated 16th June, 1952 and of 'Red Book' for July-December 1952.

No. 102-ITC(PN)/52.—The following corrections should be made in the 'Red Book' for July-December 1952 and Public Notice No. 61-ITC(PN)/52, dated 16th

SHAVAX A. LAL, Secy.

June 1952 as amended by Public Notice No. 73-ITC (PN)/52, dated 12th July, 1952:—

Reference of the Red Book	Details of correction
(1)	(2)
In Page 88—Appendix-D.	For "Chlorophyll excluding preparations thereof" Read "Chlorophyll" This correction would mean that preparations of chlorophyll which were previously excluded from the essential list are now permissible to be imported as having been included thereunder.
In page 122—Appendix-U.	For the words 'Twist Drills & Reamers' appearing in col. 2 against Serial No. 20(4) sub-item (b) the words, 'Twist Drills & Reamers mm. Size' should be substituted. This correction would mean that licences granted on the basis of 10% of half of best year's imports for certain reamers will not be valid for the import of all types of 'Twist Drill & Reamers' but will only be valid for the import of 'Twist Drills & Reamers of mm. size. This restriction about mm. size does not apply to Expanding reamers.

P. D. SRIVASTAVA,
Joint Chief Controller of Imports.

IMPORT TRADE CONTROL

New Delhi, the 16th September 1952

SUBJECT:—Licensing of cinema machinery including Sound and Projection Reproduction and Film Studio Equipment and Spare Parts.

No. 103-ITC(PN)/52.—In Public Notice No. 44-ITC (PN)/52, dated the 26th April 1952, it was stated that licences granted for spare parts of cinema machinery

will contain a list of items given in Appendix 'A' to the Plant and Machinery Handbook of 1952 for the import of which the licences would not be valid. It has been represented that the list of articles included in that Appendix should be reviewed. After taking into consideration all the relevant details including the availability of such articles in India—indigenous and imported—it has been decided to revise the list of items for which January-June 1952 licences for spare parts will not be valid. This revised list of banned items is given in Annexure 'A' to this Public Notice licences already issued will on presentation be amended by the licensing authority concerned accordingly. This decision does not affect the licences granted for complete equipments, as in accordance with paragraph 2 of Public Notice No. 44-ITC(P.N.)/52, dated the 26th April 1952 even these items were allowed to be imported as a special case under certain circumstances when imported with complete machinery.

2. The following decisions of the Government of India in regard to the grant of licences for cinema machinery and parts for the July-December 1952 period are published for general information. It should be noted that the item of cinema machinery etc. has been divided into six sub-items and for purposes of determining the applicant's quota imports of only those articles which are included in the sub-item, except where amplified in the remarks column in the annexed Table, will be taken into account. No licences granted for July-December 1952 will be valid for the import of any of the articles included in Annexure 'A' to this Public Notice.

3. The table below which follows the order given in the Red Book for the period July-December 1952 indicates the quota percentages and other conditions with which the licences will be granted to established importers.

TABLE—annexed to Public Notice No. 103-ITC (PN)/52 dated 16th September 1952.

1	2	3	4	5	6
65 (1) to (4) & 65 (i) Sound and Projection PORTS . Gen. 33½% . Eighteen . (i) It will be permissible to import with each complete Single Static or portable 35 mm/16mm Sound and Projection Reproduction equipment of 1/4 h.p. and above imported under this licence ; certain accessories and spares according to the scale shown in Annexure 'B' of this Notice.	(6) PART V. . Reproduction equipment 1/4 h.p. and above.	Soft 50%	Eighteen]		
(ii) Sound and Projection Reproduction equipment under 1/4 h.p.	PORTS . Gen. 33½% . Eighteen .	Soft O.G.L.			(ii) It will be permissible to import with each complete Single Static or portable 35mm/16mm Sound and Projection Reproduction equipment of under 1/4 h.p. imported under this licence, certain accessories and spares according to the scale shown in Annexure 'C' of this Notice.
(iii) Film Studio equipment.	PORTS . Gen. 33½% . Eighteen . 1	2	3	4	5	6
65 (5) PART V .	(i) Spare parts of Sound and Projection reproduction equipment 1/4 h.p. and above.	PORTS	Gen. 33 1/2% Soft 50%	Eighteen Eighteen	<p>(a) The quota to which an established importer will be entitled will be calculated on the basis of past imports of the articles included in Annexures 'E' and 'F' attached to this Public Notice. It may be noticed that even though the items included in the Annexure 'F' are not classifiable for Import Trade Control purposes under this Serial No. Importers of cinematographic machinery and parts are allowed as a matter of concession to take the past imports of these articles for purposes of calculation of quotas. Such importers will not, however, claim a quota under the specific S. No. of the I.T.C. Schedule under which these items would fall. A declaration to this effect will have to be made when the application for a licence is submitted to the Import Trade Control authority concerned.</p> <p>(b) The spare parts and other accessories which are specifically included under this sub-item are given in Annexures 'E' and 'F' attached to this Public Notice. An importer can avail his quota licence for the purposes of importing any of the spares included therein, provided that not more than 15% of the face value of the licence can only be used for the import of the articles included in Annexure 'F' which are classified under Serial Nos. of the I.T.C. Schedule other than 65 (5) of Part V.</p>
65 (6) PART V .	(ii) Spare parts of Sound and Projection Reproduction equipment under 1/4 h.p.	PORTS	Gen. 33 1/2% Soft, O.G.L.	Eighteen	<p>(a) The quota to which an established importer will be entitled will be calculated on the basis of past imports of the articles included in Annexures 'G' and 'H' attached to this Public Notice. It may be noticed that even though the items included in the Annexure 'H' are not classifiable for Import Trade Control purposes under this Serial No., importers of cinematographic machinery and parts are allowed as a matter of concession to take the past imports of these articles for purposes of calculation of quotas. Such importers will not, however, claim a quota under the specific Serial No. of the I.T.C. Schedule under which these items would fall. A declaration to this effect will have to be made when the application for a licence is submitted to the Import Trade Control authority concerned.</p> <p>(b) The spare parts and other accessories which are specifically included under this sub-item are given in Annexures 'G' and 'H' attached to this Public Notice. An importer can avail his quota licence for the purpose of importing any of the spares included therein provided that not more than 15% of the face value of the licence can only be used for the import of the articles included in Annexure 'H' which are classified under Serial Nos. of the I.T.C. Schedule other than 65 (6) of Part V.</p>

I	2	3	4	5	6
65 (5) PART V .	(iii) Spares of Film Studio equipment.	PORTS	Gen. 33½% Soft. 50%	. Eighteen . Eighteen.	(a) The quota to which an established importer will be entitled will be calculated on the basis of past imports of the articles included in Annexures 'J' and 'K' attached to this Public Notice. It may be noticed that even though the items included in the Annexure 'K' are not classifiable for Import Trade Control purposes under this S. No., importers of cinematographic machinery and parts are allowed as a matter of concession, to take the past imports of these articles for purposes of calculation of quotas. Such importers will not, however, claim a quota under the specific S. No. of the ITC Schedule under which these items would fall. A declaration to this effect will have to be made when the application for a licence is submitted to the Import Trade Control authority concerned. (b) The spare parts which are specifically included under this sub-item are given in Annexures 'J' and 'K' attached to this Public Notice. An importer can avail his quota licence for the purpose of importing any of the spares included therein provided that not more than 15% of the face value of the licence can only be used for the import of the articles included in Annexure 'K' which are classified under Serial Numbers of the ITC Schedule other than 65 (5) of Part V.

4. Applications should be made to the Import Trade Control authorities at the ports concerned so as to reach them by the 15th October 1952. Applications should be made in the prescribed form and manner separately for each sub-item giving cross references to different applications having been made so that simultaneous consideration is given to all the applications received from a single applicant. Importers are also advised to present at least four copies of the relevant lists of all the items included in the annexures enclosed with this Public Notice so that the delay in the actual issue of licences might be avoided.

ANNEXURES TO THE PUBLIC NOTICE NO. 103-ITC (PN)/52, DATED THE 16TH SEPTEMBER 1952.

ANNEXURE "A"

LIST I—List of cinematographic equipments whose import will not be allowed even when they are desired to be imported along with complete projection equipment.

- (a) Step down Transformers.
- (b) Arc Lamp Rectifiers (H.I. & L.I.) for Single Phase and three phase supply (Valve and metal type).
- (c) Spools upto 6,000 ft. capacity (except two spools per projector imported).
- (d) Exciter Lamp Transformers (Except when forming integral part of the projector).
- (e) Rewinders.
- (f) Rewinder plates or discs.
- (g) Slide Projectors.
- (h) Arc Resistances (except when integral with motor generator set).
- (i) L.F. Baffle and Base Reflector Boxes.
- (j) Cloth Screen.

LIST II—List of cinematographic Equipments whose import will not be allowed even when they are desired to be imported as spare parts.

- (a) Pedestals.
- (b) Magazines.
- (c) Step down Transformers.

(d) Arc lamp rectifiers (H.I. & L.I.) for single phase and three phase supply (valve and metal type).

- (e) Spools upto 6,000 ft. capacity.
- (f) Exciter lamp transformers.
- (g) Rewinders.
- (h) Rewinder plates or discs.
- (i) Slide projectors.
- (j) Arc Resistances.
- (k) L. F. Baffle and Base reflector Boxes.
- (l) H. F. Horns including multi-cellar Horns.
- (m) L. F. Horn.
- (n) Threats and Jacks.
- (o) Matching Transformers.
- (p) Cloth Screen.

ANNEXURE 'B'

COMPLETE SINGLE STATUS OR PORTABLE 35MM/16MM SOUND AND PROJECTION REPRODUCTION EQUIPMENT OF 1/4 H.P. AND ABOVE.

1. 1—Projector Mechanism complete with or without—
 - a. Soundhead adapter Gearing.
 - b. Lens Adapter.
 - c. Fire Extinguishing Device.
 - d. Screenscopes.
2. 1—Projection Lens.
3. 1—Pedestal or stand complete with or without mounting brackets and control Switches and Associated fittings (Except from U.S.A.).
4. 1—Soundhead complete with Photo Electric Cell, Exciter Lamps, Fluid Fly Wheel or Stabiliser, connecting cables and all associated fittings.
5. 1—Driving Motor 1/4 H.P. or over, complete with Starter, and Switch control unit, cables and associated fittings.
6. 1—Each top and bottom magazines complete with all fittings with capacities from 2,000 ft. to 6,000 ft.

7. Spools for 35mm. Projectors over 2,000 ft. (Only two spools will be allowed for each Projector).
8. 1—Rewinder (Electrical) for 2,000 ft. to 5,000 ft. Spools with or without cleaning and waxing attachments.
9. 1—Arc lamp with Mirror, for either Low or High Intensity operation, complete with or without carbon savers, automatic carbon feed mechanism and associated manual or electrical controls.
10. 1—Amplifier System, complete with either single or multiple voltage and power amplifiers, including valves, mounting racks or cabinets, associated controls and switch gear metering panels and Power Units and associated fittings, and Cables with or without microphones and/or a gong.
11. 1—Monitor Speaker system with or without cabinet, with matching transformer and control unit.
12. 1—Loudspeaker system comprising either single or multiple Loudspeakers, with high frequency cellulor horn, complete with H.F. Units complete with L.F. Speakers, energised or non-energised, together with frequency providing network and control units, as also field Rectifiers, if required by speaker units.
13. 1—Complete set of spare valves.
 - 1—Spare Exciter-Lamp.
 - 1—Spare set of Fuses.
 - 1—Spare set of Pilot Lamps.
 - 1—Spare set of Driving Belts or Chains.
 - 1—Spare Mirror for Arc Lamp.
 - 1—Spare Photo Cell.
14. 1—Complete set of Tools for assembling the equipment, consisting of various sizes of spanners, Allen Keys, Screw-drivers, oil can with one gallon oil of various grades as also erection belts, nuts, screws and spare parts cabinets.
15. 1—Screen either Portable or Static, made of rubber, plastic, glass or any other type of material except plain cloth.
16. 1—Non-Synchronous Gramophone attachment, complete with Motor Tone Arm and Pick-up, either single or dual complete with necessary volume and Tone Controls with or without cabinet.
17. 1—Slide Projector attachment, complete with all necessary fittings slide carriers, with or without colour wheel attachment.
18. 1—Slide Lens.
19. 1—Film Joiner (Splicer).
20. 1—Arc Rectifier, Mercury Bulb type, together with associated or connection switch gear and with spare mercury bulbs.

OR

- 1—Motor Generator Arc Set, complete with starter Regulator and load resistance units (AC/DC).
21. 1—Rotary Converter, complete with Regulator, Starter, Frequency Regulator, and Voltmeters (AC/DC).
22. 1—Automatic Electric or manual Curtain Controller with Tracks and Associated Fittings.
23. 1—Technical and Sales Literature and Display Material.
24. 1—Perthele with Optical Glass and Safety Shutter system.
25. 1—Tin or Bottle Film Cement.

ANNEXURE 'C'

COMPLETE SINGLE STATIC OR PORTABLE 16MM/33MM SOUND AND PROJECTION REPRODUCTION EQUIPMENT UNDER 1/4 H.P.

COMPLETE SINGLE STATIC OR PORTABLE 16MM/35MM Sound Projection Reproduction Equipment comprising:—

Projector Mechanism with Projection lens, Sound-head with Photo Electric Cell, Exciter-Lamp, Fluid fly-wheel or Stabilizer, connecting cable and all associated fittings; Driving Motor under 1/4 h.p. complete with starter, Switch Control Unit, cables and associated fittings; Loud-speaker system comprising either single loud-speaker or High Frequency Cellulor Horn,

complete with H.P. Units, complete with loud-speakers energised or non-energised, together with frequency providing network and control units, as also Field Rectifier if required by speaker units

2. Pedestals or Stands complete with or without mounting brackets and control switches and associated fittings.
3. Spools for 16mm Projectors (Only two spools will be allowed for each projector).
4. One—Rewinder, Electrical with or without cleaning and waxing attachments and associated fittings.
5. One—Amplifier system, complete with either single or multiple voltage and power amplifier, including valves, mounting racks or cabinets, associated control and switch gear, metering panels with or without microphone.
6. One—Monitor Speaker system with or without cabinet with matching transformers and control units.
7. One—Complete set of Spare Valves.
 - One—Spare Exciter-Lamp.
 - One—Spare set of Fuses.
 - One—Spare set of Pilot Lamps.
 - One—Spare set of Driving Belts or Chains.
 - One—Spare Mirror.
 - One—Spare Photo Cell.
 - Two—Projection Lamps.
8. One—Complete set of tools consisting of various sizes of spanners, Allen Keys, Screw-drivers, Oil Can, with one gallon oil of various grades for Projector Sound-Head.
9. One—Screen either portable or static, made of rubber glass, Plastic, or any other type of material excluding plain cloth.
10. One—Non-Synchronous Gramophone attachment, complete with Motor, Tone Arm, and Pick-up, either single or dual complete with necessary volume and tone controls with or without cabinet.
11. One—Splicer.
12. One—Motor Generator set or Engine Generator set, complete with starter, Regulator and Load Resistance Units (AC/DC).
13. One—Rotary Converter or Inverter complete with Regulator, Starter, Frequency and Volt Meters (AC/DC).
14. One—Technical and Sales Literature and Display Materials.
15. One—Tin or Bottle Film Cement.
16. One—Arc-lamp with mirror either L.I. or H.I. and with automatic carbon feed or handfeed complete.

ANNEXURE 'D'

FILM STUDIO EQUIPMENT (STUDIO INDUSTRIAL MACHINERY).

1. Recording Equipment:

Studio type or standard or semi-portable or portable or Magnetic Recording Equipment (for photographic or Magnetic or both) either according to factory specifications or specially custom built, mainly consisting of:—

Microphones with/without Microphone stands, connectors, suspension mountings, Mixers, Power Cabinets, Transmission Cabinets, Recorders with Motors, light valves or galvanometers, magazines, with/without carrying cases.

Set of cables, 2 sets of glassware (one for spare), Set of Tools, Motor Control Cabinets, Invertors, Noiserasers, Demagnetisers, 50,000 ft. Magnetic perforated Tape, Magnetic Reader Split Reels, Monitor Headsets, Interphone hand sets, Testing or Checking Instruments, for Film or Magnetic Tape, Set of conversion parts for modifying Density system to Area system or vice versa. Set of Conversion Parts for modifying Area or Density Systems to combine Photographic Magnetic operation, Main Amplifier single or multiple, complete with rack/shelf equalizer, OSC/preamplifier with or without carrying case Talkback microphones, 20. Exposure Lamps, Focussing and Measuring Microscopes,

Monitor speaker assembly, Low voltage power supply units, voltage Regulators, B Supply units with 2 sets of tubes (one spare) plugs, connectors, sockets, etc.

Conversion Kits to convert recorder from 35 mm. to sub-standard film or tape or vice versa.

2. Re-recording, Scoring and Dubbing Equipment:

Either according to factory specifications or special custom built, consisting mainly of following items for each channel:—

Re-Recorders with loop cabinets or attachments.

Magnetic Modifications for above.

Rectifiers Plate and Filament Supply, Exciter Lamp Supplies.

Voltage Regulators Interlock Distributors or Selsyn M.G. Set Disc-Recorders with or without Amplifier and speaker Multi-position mixers, console desks, pre-amplifiers or re-recording compensators or high and low equalisers, power supplies monitoring amplifiers and talk back amplifiers and associated fittings Monitor loud-speakers, Double film or preview attachment. Loop-attachment for above, Soundheads with pre-amplifiers interlock or selsyn motor adapters and associated fittings, M.G. Sets or Distributors with motor clutch and associated fittings, R.P. Switches (Recording and Projection) Magnetic Conversions for Sound Heads, Cables, Plugs and associated fittings and accessories.

3. Preview Equipment—comprising:—

One Sound System with soundheads with pre-amplifiers, stand-by or emergency amplifiers, main amplifiers, power supplies, control cabinets, monitor speakers, interlock and synchronous motors and spare sets of glassware.

Two Projector Mechanisms, Two sets of Magazines.

Two Pedestals, Two Projection Lenses, Two Arc Lamps.

Two Rectifiers or one Arc Set with Resistance, control panel, starter, etc., 15 spools, One Screen.

One Rewinder and Disc, one Stepdown transformer.

One Set of modification parts to convert Re-recording from photographic to magnetic recording.

4. 35 mm. and/or 16 mm. Picture Cameras—comprising mainly:—

Picture Camera, Carrying Case, Set of Filter Holders and Cases, Magazines with/without cases, Variable diffusers, Combination Matte box and sunshades, Tripods, Friction Tilt-heads, Set of Lenses, 220 volts 50 cycle 3 phase Synchronous Motor, One interlock Motor, one Multi-duty motor, DC Motor, Blimp, Sets of batteries with case.

5. Single System Camera and Recorder—consisting mainly of:—

35 mm. or 16 mm. Sound-cum-Picture Camera with accessories as per Item 4 above and Sound Recording System as per Item 1 or any part thereof.

6. Back Projection Equipments:

Either according to factory specifications, or specially customs built and comprising mainly:—

Projection Mechanism either single or multiple heads including control panel, remote control focus, register pin movement driven by 220 Volt AC Interlocking motor, upper and lower magazines pedestals Arc-lamp, set of lenses, screen, motor generator, distributor, 220 Volt interlocking motor for camera, etc.

7. Animation stands.

7A. Title Stands.

8. Studio Lights 500 Watts and above, incandescent lamps and/or Arc Lights, according to factory specifications with or without generators, pedestals, barn doors, diffuser frames, splice boxes, plugs cables, etc.

9. Microphone Booms with or without perambulators.

10. Camera Velocitators, Dollies, Pathfinders, Cranes either manual or power.

11. Automatic or Semi-Automatic Film Developing and Processing Plants.

12. Film Cleaning and Polishing Machines.

13. Film Waxing Machines.

14. 35 mm. or 16 mm. Film Printing Machines.

15. 35 mm. to 16 mm. Reduction and/or Enlarging Printers.

16. Optical effects and Trick printing equipments.

16A. Matte shot projectors.

17. Film Numbering Machines.

18. Sensitesters.

19. Film Viewing and editing equipments (Moviola, Editola, etc.).

20. Synchronisers, }

21. Rewinders, }

22. Benches. }

When imported with the equipment.

23. Cutting and Editing Tables or Benches.

24. Blooming Punch for sound splicers when imported with equipment.

25. Densitometer.

26. Intermodulation and/or cross modulation sets for checking film distortion.

27. Generators (Petrol, Diesel, mains or battery operated) when imported with equipment.

28. Test Films.

29. Technical Literature and instruction booklets.

30. Footage Counters for 35 mm. or 16 mm. or combined.

31. Sensitometer.

32. Rotary converters with starters, Regulators and Frequency Meters (when imported with the equipment).

33. Colour Temperature Meters.

ANNEXURE 'E'**SPARE PARTS OF SOUND AND PROJECTION REPRODUCTION EQUIPMENT OF $\frac{1}{4}$ H.P. AND ABOVE**

1. Projector Mechanism with or without Adaption Gearing and all replacements and spare parts.

2. Soundheads and all replacements and spare parts.

3. Cinema Arc Lamps and all replacements and spare parts.

4. Carbon Auto Feed Mechanism and all replacements and spare parts.

5. Amplifier designed for 35 mm. Cinema Projectors and all replacements and spare parts.

6. Projection Lenses for 35 mm. and all replacements and spare parts.

7. Arc Rectifiers (Mercury type) and all replacements and spare parts.

8. Tungar Bulbs and Mercury Bulbs and all replacements and spare parts.

9. Projection Driving Motors and Associated starting gear-single phase or three phase (not covered under restricted item) and all replacements and spare parts.

10. Motor Generator Arc Sets (AC/DC-DC/DC) and all replacements and spare parts.

11. Arc Lamp Mirrors, glass or metal, Mirror Guards and Carbon Savers.

12. Porthole Optical Glasses and all replacements and spare parts.

13. Sound Optics and/or parts.

14. Loudspeakers system complete unit designed for 35 mm. projector.

15. Exciter Lamps—prefocus.

ANNEXURE 'F'**I. COMPETENT PARTS AND ACCESSORIES OF SOUND AND PROJECTION REPRODUCTION EQUIPMENT OF AND OVER $\frac{1}{4}$ H.P. BUT ASSESSABLE AS ELECTRICAL INSTRUMENTS AND APPARATUS.**

1. Loudspeakers, Cellular Horns, Treble and Base driving Units, Speaker Cabinets, Frequency, Dividing Networks, Field Rectifiers, Volume Controls and Filters (excluding High Frequency Multicellor Horns), and all replacements and spare parts.

2. Lenses for Slide Projectors and all replacements and spare parts.

3. Rotary Converters (AC/DC) with filter or silenced cabinet and all replacements and spare parts.

4. Automatic changeover units—Electrical and all replacements and spare parts.

5. Automatic changeover units—Mechanical and all replacements and spare parts.

6. Exciter Lamp Rectifier Units and all replacements and spare parts.

7. Exciter Lamps—Bayonet types and all replacements and spare parts.

8. Photo Electric Cells with housing and all replacements and spare parts.

9. Photo Electric Cells without housing and all replacements and spare parts.

10. Special Jacks (Sockets) and plugs and all replacements and spare parts.

11. Manual or Electrical Curtain Controllers.

12. Stage Lighting Battens.

13. Stage Lighting Equipments as applicable to the Cinema and Theatre.

14. Fuses.

15. Stage announcing equipments.

II. COMPONENT PARTS AND ACCESSORIES OF CINEMA EQUIPMENTS BUT ASSESSABLE AS APPLIANCES N.O.S.

1. Automatic Fire Extinguisher Equipments and Re-fills and all replacements and spare parts.
2. Rewinders, Power operated.
3. Film Joiner (Splicers).
4. Automatic Changeover Units—Mechanical and all replacements and spare parts.
5. Screens all sizes and types excluding plain cloth and all replacements and spare parts.

(III) COMPONENT PARTS AND ACCESSORIES OF CINEMA EQUIPMENTS BUT ASSESSABLE AS LAMPS N.O.S.

1. Projection Lamps
2. Pilot Lamps.
3. Neon Indicator Lamps.

IV. COMPONENT PARTS AND ACCESSORIES OF CINEMA EQUIPMENTS BUT ASSESSABLE UNDER VARIOUS MISCELLANEOUS HEADINGS.

1. 16 mm. Spools—above 1,600 ft.
2. Projector Driving Chains.
3. Projector Driving Belts.
4. Metal or Selenium Rectifier Stacks for Exciter Lamp Rectifier Unit.
5. Special Lubricants as supplied by manufacturers for Projector Mechanism, Soundhead and Rotary Stabilizers Grease.
6. Cables other than those falling under the restricted category of S. Nos. 45 and 48 of Pt. II, of the Import Trade Control Schedule.
7. Jigs and Fixtures for maintenance and repair of Projectors and Sound Equipment.
8. 35 mm. non-inflammable test films.
9. Coloured Gelatin sheets.
10. Coloured Glasses.
11. Film Cement.
12. Plugs Connection and Jacks (Sockets).
13. Non-Sync. Spare Parts.
14. Carbon Brushes for Rotary Convertors/Arc Sets.

ANNEXURE 'G'

SPARE PARTS OF SOUND AND PROJECTION REPRODUCTION EQUIPMENTS OF UNDER $\frac{1}{4}$ H.P.

1. Projector Mechanism with adaptation Gearing and all replacements and spare parts.
2. Sound-Heads and all replacements and spare parts.
3. Amplifier specially designed for 16mm/35mm. Cinema Projectors and all replacements and spare parts.
4. Projection Lenses.
5. Projection Driving Motors and associated starting gear—single phase or multi-phase and all replacements and spare parts.
6. Mirrors, glass or metal Mirror-guards and Carbon savers and all replacements and spare parts.
7. Optical Glasses.
8. Sound Optics and/or Parts.

ANNEXURE 'H'

(I) COMPONENT PARTS AND ACCESSORIES OF SOUND AND PROJECTION REPRODUCTION EQUIPMENT OF UNDER $\frac{1}{4}$ H.P. BUT ASSESSABLE AS ELECTRICAL INSTRUMENTS AND APPARATUS.

1. Loudspeakers, Volume controls and Filters and all replacements and spare parts.
2. Editing Equipment complete.
3. Exciter Lamps.
4. Photo Electric Cells with housing and all replacements and spare parts.
5. Photo Electric Cells without housing and all replacements and spare parts.
6. Special Jacks (Sockets) and Plugs and all replacements and spare parts.
7. Fuses.

(II) COMPONENT PARTS AND ACCESSORIES OF CINEMA 16MM/35MM PROJECTION EQUIPMENTS BUT ASSESSABLE AS APPLIANCES N.O.S.

1. Film Joiners and Splicers and all replacements and spare parts.
2. Screens all sizes and types excluding plain cloth.

(III) COMPONENT PARTS AND ACCESSORIES OF CINEMA 16MM/35MM PROJECTION EQUIPMENTS BUT ASSESSABLE UNDER VARIOUS MISCELLANEOUS HEADINGS.

1. 16mm Spools—above 1,600 ft.
2. Projector Driving Chains.
3. Projector Driving Belts.
4. Special Lubricants.
5. Cables other than those falling under the restricted category of S. Nos. 45, 48 of Pt. II of the Import Trade Control Schedule.
6. Test Films
7. Film Cement.
8. Plugs connection and Jacks (Sockets).
9. Non-Sync. Spare Parts.

(IV) COMPONENT PARTS ASSESSABLE AS LAMPS N.O.S.

1. Projection lamps.
2. Pilot Lamps.
3. Neon Indicator lamps.

ANNEXURE 'J'

SPARE PARTS FOR FILM STUDIO EQUIPMENT

1. Recording Microphone.
2. Magazines for Professional Recorders and Cameras.
3. Light valves or Galvanometer (Inspection Microscope).
4. Exciter Lamp supply unit.
5. Exciter Lamp pre-focus.
6. Printing and Recording Lamps.
7. Connectors and Plugs (Male and Female).
8. Magnetic perforated tape.
9. Components of and replacements and spare parts for Annexure D.

ANNEXURE 'K'

(I) COMPONENT PARTS AND ACCESSORIES OF FILM STUDIO EQUIPMENT, BUT ASSESSABLE AS ELECTRICAL INSTRUMENTS AND APPARATUS.

1. Loudspeakers, cellular horns, treble and base driving units, speaker cabinets, frequency dividing networks, field rectifiers, volume controls and filters and all replacements and spare parts.
2. Rotary convertors (AC/DC) with filter or silenced cabinet and all replacements and spare parts.
3. Auto or manual voltage regulators and all replacements and spare parts.
4. Automatic changeover units electrical.
5. Automatic Changeover units mechanical.
6. Exciter Lamp Rectifier Units and all replacements and spare parts.
7. Exciter Lamps—bayonet types and all replacements and spare parts.
8. Photo Electric Cells with Housing and all replacements and spare parts.
9. Photo Electric Cells without housing and all replacements and spare parts.
10. Jacks (sockets) Plugs and Sockets
11. Fuses.
12. Intermodulation sets
13. Cross Modulation sets.
14. Distortion Analyser.
15. Plate and Filament Power supply.
16. Generators.
17. Microphones.

(II) COMPONENT PARTS AND ACCESSORIES OF FILM STUDIO EQUIPMENTS BUT ASSESSABLE AS APPLIANCES N.O.S.

1. Joiner and Splicer.
2. Screens all sizes and types, except plain cloth.
3. Film Punch.
4. Slaters.

(III) COMPONENT PARTS AND ACCESSORIES OF FILM STUDIO EQUIPMENTS BUT ASSESSABLE AS LAMPS N.O.S.

1. Projection Lamps.
2. Pilot Lamps.
3. Neon Indicator Lamps.
4. Exposure Lamps.

(IV) COMPONENT PARTS AND ACCESSORIES OF FILM STUDIO EQUIPMENTS BUT ASSESSABLE UNDER VARIOUS MISCELLANEOUS HEADINGS.

1. Driving Belts.
2. Driving Chains.
3. Metals Rectifier stacks.
4. Special lubricants as supplied by manufacturers for Recorder Mechanism, Preview Projector Mechanism, Soundhead and rotary stabilizers grease.

5. Cables other than those falling under the restricted category of S. Nos. 43 and 48 of Part II of I.T.C. Schedule.

6. Jigs and fixtures for repairs and maintenance.
7. Tests films.
8. Coloured gelatine sheets.
9. Coloured glasses.
10. Film Cement.
11. Plugs connectors and jacks (sockets).
12. Carbons brushes for rotary convertors/Arc sets.
13. Magnetic Emulsion Applicator complete with accessories.

L. K. JHA, Joint. Secy.

SILK BOARD

New Delhi, the 17th September, 1952

No. 1 (42)-Tex/52.—The following statement of accounts of the Central Silk Board for the period 1st April 1951 to 31st March 1952 is published in the *Gazette of India* in accordance with sub-rule (2) of rule 33 of the Central Silk Board Rules, 1949:—

Director Headquarters U.P. has been nominated by the Uttar Pradesh Government to be a member of the Indian Central Jute Committee with immediate effect vice late Mr. John A. Manawwar.

J. S. RAJ, Dy. Secy.

(Indian Council of Agricultural Research)

New Delhi, the 17th September 1952

No. F. 63(12)/52-Adn.—Under rules 2(29) and 41(18) read with rule 6(6) of the Rules of the Indian Council of Agricultural Research, Professor A. C. Bannerji, M.A. (Cantab.), M.Sc. (Cal.), I.E.S. (Retd.), F.R.A.S. (Eng.), F.N.I., Vice-Chancellor, University of Allahabad, Allahabad, has been elected by the Inter-University Board of India as a representative of the Indian Universities on the Indian Council of Agricultural Research and its Advisory Board vice Nawab Ali Yavar Jung Bahadur. Professor Bannerji will hold office from the 5th August 1952, to the 31st March 1954, or until such time as he continues to be a member of the Inter-University Board of India, whichever period expires earlier.

J. V. A. NEHEMIAH,
Secy., Indian Council of Agricultural
Research and Ex-Officio Dy. Secy.

MINISTRY OF EDUCATION

New Delhi, the 18th September 1952

SUBJECT:—Report of the Hindi Shorthand and Hindi Typewriter Standardization Committee.

No. F.12-49/51-T.2.—The President of the Constituent Assembly of India appointed in 1948 a committee of experts under the chairmanship of Kaka Saheb Kalelkar to recommend the most suitable system of Hindi Shorthand and the best arrangement of the keys of a Hindi Typewriter, and also to formulate the best possible telegraphic code based on Devnagari script.

The Committee made the following recommendations:—

(A) Hindi Shorthand System—

- (i) Interim recognition may be given to the four systems known as Ashu Lipi, Wardha Pranali, Nishkam Pranali and Rishi Pranali.
- (ii) A Board consisting of scholars of phonetics and grammar of Hindi and other Indian languages and some experts in shorthand be set up to help in the evolution of a satisfactory system of shorthand for the national and other Indian languages and conduct examinations on an All-India basis for awarding certificates of competence in Hindi Shorthand which should be recognised by the Union and the State Governments.

(B) Hindi Typewriters—

A standard Hindi typewriter with 46 keys and 94 characters and a portable typewriter with 42 keys and 84 characters should be tested and approved by Government to enable manufacturers to produce such typewriters.

(C) *Hindi Telegraphic Code:—*

Improvement of the telegraphic code should be carried out on the basis of a limited use of the principle of frequency and greater dependence on the scientific arrangements of Nagri letters.

The Government of India have carefully considered the above recommendations and have decided as follows:—

(A) *Hindi Shorthand System:—*

The Government of India are of the view that in the matter of shorthand, the emphasis should be on accurate transcription of the matter dictated and not on the system of shorthand followed. The recognition of a particular system or systems will tend to discourage the development of new and better systems and impair efficiency by excluding persons who have followed systems other than those recognised. Further, in the matter of recruitment of stenographers for positions in the Central Government the suitability of candidates is assessed on the basis of performance at a test and certificates of proficiency awarded by institutions and other bodies are not recognised. In consideration of these facts, Government have decided not to recognise any particular system or systems of Hindi Shorthand. Recruitment of Hindi stenographers should therefore continue to be made on the basis of performance at a test.

(B) *Hindi Typewriters:—*

After considering various recommendations, Government have decided that a few typewriters should be manufactured according to the improved key board suggested by the Special Committee of the Constituent Assembly and subjected to exhaustive tests for speed and accuracy. Government have also decided that others claiming to have designed better key boards may be asked to supply machines for similar tests. Government's final decision on the selected key board will be announced on the completion of tests on all such machines over a period of 12 months.

(C) *Hindi Telegraphic Code:—*

Government have decided that the Posts and Telegraphs Directorate should develop its own telegraphic code according to its special requirements in consultation with other important interests such as Hindi News Agency, Hindi News Papers and linguists.

HUMAYUN KABIR, Addl. Secy.

MINISTRY OF IRRIGATION AND POWER

RESOLUTION

New Delhi, the 20th September 1952

No. DW.10.—Pursuant to the recommendations made in the Fifth Report (1951-52) of the Estimates Committee of Parliament, the Government of India have decided to set up a Committee to examine and report on the various points at issue relating to the execution of the Damodar Valley Project, and to make suitable recommendations with a view to achieving the most economical and expeditious development of the Damodar Valley.

2. The Committee will consist of the following:—

- (i) Shri P. C. Rau, I.C.S., Adviser to the Govt. of Madhya Bharat.—*Chairman.*

Members

- (ii) Shri V. D. Dantyaagi, Deputy Comptroller and Auditor General.
- (iii) Shri S. B. Capoor, I.C.S., Joint Secretary, Ministry of Law.

- (iv) Shri G. R. Garg, Director (Irrigation), Central Water & Power Commission.

- (v) Shri B. D. Nanda, Officer on Special Duty, Planning Commission.—*Member Secretary.*

3. The Committee will examine and make their recommendations to the Government of India in the Ministry of Irrigation and Power on the following:—

- (1) Land reclamation and rehabilitation works undertaken by the Damodar Valley Corporation.
- (2) The changes in the design and construction features of the Konar and Tilaiya Dams; the award of contracts and the rates for various items of works;
- (3) The planning and purchase of stores and equipment for works on Damodar Valley Corporation and the procedure therefor;
- (4) The adequacy of the Damodar Valley Corporation Act, 1948, and the organisational set-up of the Corporation.

4. The Chairman and the other members of the Committee will work whole time on the Committee. The Committee will commence work immediately and submit its report within two months.

A. N. KHOSLA, Addl. Secy.

MINISTRY OF COMMUNICATIONS

RESOLUTION

New Delhi, the 10th September 1952

No. NA.23-22/49/Part.—In May 1949 the Director-General, Supplies and Disposals, placed an order on Messrs. Kamani Engineering Corporation Ltd., for 687 miles of under-ground cable manufactured by Messrs. Farukawa, Japan on the basis of open competitive tenders. Before placing the order, that organization had obtained the views of certain American experts both on the capabilities of the Japanese manufacturers and on the quality of their finished products. It was, however, found that when these cables were being laid under water pipes, etc., in Calcutta, the top layers of jute came off, though the same cable laid in Delhi and Bombay did not show such defect.

2. Certain remedial measures were taken for a portion of the cable and it is the view of the telegraph engineers that all these cables can be expected to last the normal life which was previously 36 years and is now proposed to be fixed at 40 years. However, the Comptroller and Auditor-General has not felt happy about this purchase and he has expressed a fear that the cables may require replacement long before the expiry of their normal life. In order to examine how the life of these cables is likely to compare with the normal anticipated life, Government hereby appoint the following Committee:—

Chairman

- (1) Shri B. Das, M.P.

Members

- (2) Shri Sarangadhar Das, M.P.
- (3) Dr. K. N. Mathur, Asst. Director, National Physical Laboratory.
- (4) Shri P. S. Gupta, D.D.G. (Supply), Directorate General of Supply & Disposal.
- (5) Shri S. K. Kanjilal (Junior), District Manager, Telephones, New Delhi. (P. & T. Dept.)

3. The Committee is requested to examine all aspects of the problem and make its report to Government as early as possible.

A. V. PAI, Secy.
